+1 760-557-0141

Product Designer specializing in enterprise SaaS, AI-powered products, mobile applications, and responsive web experiences. Focused on simplifying complex digital products through thoughtful UX and intuitive interface design.

EXPERIENCE

Independent Product Designer

San Diego

Freelance

January 2026 - Present

- Improved AI-powered mobile and web products by simplifying complex workflows, refining information architecture, and enhancing user experiences.
- Designed intuitive user interfaces, interactive prototypes, and scalable component systems across AI, mobile, and web products.
- Partnered with developers, founders, and stakeholders to refine digital products through iterative design, continuous feedback, and user-centered problem solving.

Product Designer (Contract)

San Diego

Requis

Jul 2024 - Jan 2026

- Simplified complex enterprise workflows by redesigning the Lot Management experience, improving navigation, information architecture, and usability.
- Improved Marketplace and Procurement experiences through responsive design, interactive prototyping, and scalable UI components.
- Enhanced CRM, Supplier Storefront, onboarding, and notification experiences through close collaboration with Product Managers and Engineers in an Agile environment.

UI/UX Designer | Web Designer

San Diego

Freelance

Jun 2021 - Jul 2024

- Designed responsive websites across tourism, construction, e-commerce, and professional services, creating intuitive user experiences and visually engaging interfaces.
- Translated client goals into user-centered website designs through wireframing, high-fidelity UI design, and responsive layouts.
- Strengthened brand identity and online presence by delivering accessible, visually consistent, and conversion-focused websites.
